

# Chem 113

## Fictional Forensics

Each quarter, you will be required to read a novel of the mystery genre. Some suggestions for authors are listed below. Only one title will be allowed per student. If you are unsure about a book, please show it to me to make sure that it is appropriate. We will sign up for titles on \_\_\_\_\_.

After reading the book you have selected, you will write a report that will include the following:

1. A summary of the plot
2. The types of forensic techniques and evidence used in the story
3. How Forensic Science was used to solve the case
4. A bibliographical reference to the book you read.

This report will be due at the end of the quarter on \_\_\_\_\_. The report should be double spaced, typed and in a font that is easy to read (like Times New Roman).

### Possible Authors

Sir Arthur Conan Doyle  
Jeffrey Deaver  
Patricia Cornwell  
Lisa Gardner  
Arthur Bahr
